

## Recognized Subjects of Biological Sciences

*[Agenda: 6 of 14<sup>th</sup> EC Meeting held at CAS in Botany,  
University of Madras, Chennai on 26-01-2014]*

This decision enlarges the scope of including new subjects under various categories of Biological Sciences.

### 1. Agricultural Sciences & Forestry

- |    |              |    |                          |
|----|--------------|----|--------------------------|
| a. | Agriculture  | d. | Agricultural Engineering |
| b. | Horticulture | e. | Agricultural Economics   |
| c. | Forestry     |    |                          |

### 2. Basic Sciences

- |    |                                |    |                        |
|----|--------------------------------|----|------------------------|
| a. | Botany                         | g. | Microbiology           |
| b. | Zoology                        | h. | Biochemistry           |
| c. | Marine Biology                 | i. | Physiology             |
| d. | Life Sciences /<br>Biosciences | j. | Genetics               |
| e. | Biotechnology                  | k. | Biophysics             |
| f. | Molecular biology              | l. | Environmental Sciences |

### 3. Veterinary & Fisheries

- |    |                                   |    |                                       |
|----|-----------------------------------|----|---------------------------------------|
| a. | Veterinary and Animal<br>Sciences | c. | Dairy Sciences                        |
| b. | Fisheries                         | d. | Pharmacology and<br>Clinical Sciences |

### 4. Food and Nutrition
